

MUHAMMAD SHAZIM

DEVELOPER

PROFILE

A final-year Software Engineering undergrad, I specialize in mobile app development using Flutter, prioritizing user-centric solutions and API integration. I also possess a solid foundation in web development basics and continuously explore new front-end technologies. Eager to collaborate on innovative projects reshaping both mobile and web experiences.

EDUCATION

BACHELOR'S DEGREE (Software Engineering)

Usman Institute of Technology | 2021 - Present

INTERMEDIATE (Pre - Engineering)

Government Delhi College | 2019

EXPERIENCE

FULLSTACK DEVELOPER I (Flutter)

Axon Solutions | Nov 2023 - Present

Key Achievements:

- Spearheading the development of a comprehensive Hotel Booking App from inception to execution, comprising over 40 screens.
- Developed key screens including login, signup, password management, splash screen, onboarding sequences, reservations, bookings, settings, profile, tutorial, contact services, and FAQ sections according to design specifications.
- Implemented application theming with support for both dark and light modes, enhancing user experience.
- Executed seamless API integrations throughout the application to facilitate data exchange and functionality.
- Acquired proficiency in MVC architecture, enhancing the application's structure and scalability.
- Single-handedly managing the project, demonstrating strong ownership and commitment to delivering high-quality solutions within a tight timeframe.

FRONTEND DEVELOPER INTERN (Flutter)

Axon Solutions | Aug 2023 - Oct 2023

Key Achievements:

- Developed responsive mobile and web dashboards utilizing Flutter, incorporating nested routing for seamless navigation.
- Developed functional UI for a Solar Panel Cleaning Application using provided design assets, adhering to UI/UX guidelines.
- Acquired proficiency in Flutter during the internship, mastering core concepts such as state management (with GetX), Go Routers, and responsive design principles.
